DSP-10/15/19/22

DSP panel computers are advanced touchscreen devices that combine modern technologies, high quality workmanship, and competitive pricing. Thanks to their versatility, they are used in areas such as digital signage, production support, self POS, customer assistance, virtual fitting rooms, KDS, and many others. Available in various configurations, DSP panels offer a wide range of technical parameters, allowing them to be tailored to individual user needs. Equipped with USB interfaces, serial ports, HDMI output,

LAN ports, Wi-Fi module, and audio connectors enable easy integration with other devices and IT systems, increasing their functionality. DSP panel computers feature FHD LCD screens ranging in size from 10.1" to 21.5", capacitive and resistive touch technology, up to 32 GB of DDR4 RAM, and the option of SSD drives with capacities up to 512 GB. The option to install Windows makes them even more versatile, and their suitability for operation in temperatures ranging from 0 to 60°C ensures reliability in a variety of environments.

TECHNICAL SPECIFICATIONS

Model	DSP Panel PC	Installation	VESA 100x100
Processor	Intel® N97 Intel® Core™ i5	Operating temperature	10°C~60°C (50°F ~ 140°F)
RAM	max. 32GB DDR4 RAM	Cooling	passive
Disk	128GB SSD, 256GB SSD, 512GB SSD	Ethernet	Intel® i5 – 2 x LAN Intel® N97 – 1 x LAN
Screen diagonal	10.1" FHD / 15" (4:3) / 15,6" FHD / 18,5" FHD / 21,5" FHD	Graphics card	integrated on the board
Resolution	1024 x 768 (4:3) / 1920 x 1080 FHD	Sound card	optional
Viewing angle	89° (left), 89° (right) 89° (up), 89° (down)	I/O Ports	2 x RS232/COM, 2 x USB 3.2, 2 x USB 2.0, 1 x LAN, 1 x VGA, 1 x HDMI, 1 x Line out, 1 x MIC
Overlay type	capacitive (PCAP) / resistive	Power supply	12V DC
Color	black	Speakers	5V
Housing	powder-coated steel, with increased tightness	Operating system	Linux, Windows
		Accessories (optional)	Intel Wi-Fi module 5/7, Bluetooth
		Guarantee	24 months
