IMAGO TREE

IMAGO TREE is a modern assembly system designed to maximize the use of workspace. It is ideal for points of sale, customer service areas, production halls, and warehouses, allowing for flexible workplace organization—from shop counters to assembly lines. The system includes a variety of elements, such as holders, stands, arms, and other accessories that help maintain order and improve workplace ergonomics.

We also offer support in selecting solutions that will increase work efficiency. For specific requirements, it is possible to create a solution perfectly tailored to individual needs to ensure maximum functionality and optimal use of space.
