## DSP-S215

DSP-S215 panel computer is a modern touchscreen device combining advanced performance, durable design, and elegant appearance. Powered by an Intel N97/Celeron J6412 Quad-Core processor and equipped with a 21.5-inch Full HD capacitive touch display, it ensures smooth operation and excellent image quality. Supporting up to 32 GB DDR4-4G RAM and fast SSD storage, the DSP-S215 offers reliable performance for various commercial applications.

Multiple connectivity options allow easy system integration, while compatibility with Windows provides flexibility in software use.

Designed for continuous operation in temperatures from 0°C to 50°C (32°F–122°F), and certified to CE, ROHS, FCC, CCC, and ISO9001-2008 standards, the DSP-S215 is an ideal solution for retail, hospitality, and customer service environments. Included with VESA 100x100 mount
